- 3. Reach out to your business networks**
- 4. Educate your consumers**

Thanks to Our Sponsors

- **Safer Chemicals Healthy Families** is a nationwide effort to pass smart federal polices that protect us from toxic chemicals . They are inviting businesses and others to join the efforts to reshape U.S. Chemicals policy to ensure a healthy economy, society, and environment. www.saferchemicals.org
- **Business-NGO Working Group on Safer Chemicals and Sustainable Materials** is a unique collaboration to promote the creation and adoption of safer chemicals and sustainable materials in a way that supports market transitions to a healthy economy, healthy environment, and healthy people. www.busngoworkgroup.org
- **American Sustainable Business Council** is a growing coalition of business networks including Business Alliance for Local Living Economies, B-Lab, Green America, New Voice of Business, Social Enterprise Alliance, Social Venture Network, Green Chamber of Commerce and The Association for Enterprise Opportunity which together are dedicated to supporting policies for the transformation of our economy and our society based on principles of sustainability and equity. www.asbcouncil.org
